

**Community Health Nurse (CHN) #2021-41 (BHHC-Stroud)** Performs nursing services in a community based home care program and to provide nursing services at the Black Hawk Health Center. Working with selected patients, the LPN performs nursing services to eligible clients in his/her home, in the community, and in the clinic. Makes health assessments of selected clients, identifies health care needs, and assists clients in getting those needs met through coordination with other service programs. Evaluates the progress of clients, makes periodic assessments, and coordinates with physicians and families when changes are needed. Participates in immunization clinics, assesses immunization needs, and gives necessary immunizations according to procedures. Assist the homebound by providing instructions to family members on how to provide assisted health care to those family members with chronic disabling diseases, broken bones, or those recovering from surgery or prolonged illness. Must have a working knowledge of professional nursing care principals, practices, policies, and procedures. Must have a working knowledge of Community Health and/or Public Health practices, policies, and procedures. Must be able to function with minimal supervision in the home care setting. Must have a current Oklahoma State License of Practical Nursing. One year of home health or community health experience is preferred.
